I am fascinated with your CD. We here at WJSK. have had it on the air since received in December. We have an evening program called AFTER DINNER MINT. All of your songs, except for ZANZIBAR are featured on this program. ZANZIBAR is heard during our daytime music schedule. So, you have scored a THOUSAND with this station. Trish, ON THE QUIET SIDE is truly refreshing. You have a sincerity about your style that doesn't appear too often in today's music. Already, listener call-in has asked about the new featured artist on the MINT. We're glad to tell them about you. A Tip of the Hat to your musicians and technicians who mixed this CD---superb!! WJSK is a TRADITIONAL JAZZ station so if you have other CDs, please send them along. Best Regards, Frank Pingree WJSK 101.1 FM.

Got your new CD yesterday and have been listening to it ever since. One hell of an album! Love your rendition of "So Many Stars," not since Lani Hall sang it on Sergio Mendes's *Look Around* CD from his Brasil 66, has any one come close to giving it justice. Your version is jazzy and slower making for a better tune. Also dig the "I'm Alone" number. Anyway I will be playing it on the air in a few weeks, already have the next two weeks programmed and ready to go. I have an early Sunday morning show at WDNA 88.9fm here in Miami, live on the web at www.seriousjazz.org.

From the very first track, I decided that this was going to be a winner. Darin Clendenin's wonderful accompaniment makes this track my favorite. But all tracks are so good that as a new fan of Trish's, I will now have to go searching for her other discs. This one is sure to please my listeners here on the South Coast of New South Wales. I look forward to many hours of enjoyment with Trish, Darin and the rest of the gang. A special mention to Paul Mazzio, playing my favorite instrument.
